Dear _____,

Every year, approximately 300-500 municipal professionals like myself gather to attend the **Association of Municipal Managers, Clerks and Treasurers of Ontario's (AMCTO) Annual General Meeting and Professional Development Institute**. With provincial COVID-19 health and safety measures in-effect, this year's conference will be taking place in-person in Niagara Falls this **June 12-15, 2022**. There will also be a virtual option for delegates to access recorded conference sessions through AMCTO's online learning management system, AMCTO Connect, beginning the week of July 4th.

This presents a unique opportunity to connect with peers and local government professionals from across Ontario and beyond and to gain **over 30 hours of professional development** by attending sessions on key topics and trends in the sector. These sessions will provide me with practical knowledge and skills that are relevant to **advancing my work and the work of our community**.

I would very much like to attend in order to exchange ideas, explore new topics and approaches to my work. This year's conference theme is **Welcome Back Together** – an opportunity for municipal professionals to come together as a sector to build new, collaborative partnerships, and to create a plan of action for moving forward together coming out of the pandemic. At this year's conference, I will have the opportunity to not only **collect valuable professional development hours** I can put towards obtaining my CMO, AMOC, and AMP designations, but I will be able to **directly engage with key decision-makers, sector suppliers and special guests**. I believe it will well-worth attending. There are a number of different registration options and pricing including a virtual offering – all outlined in detail in the [following 2022 conference registration guide](#).

After the conference, I would be happy to develop a plan to implement what I've learned to improve my work and my department's performance. I will also be able to share lessons learned with fellow employees so that we can ensure our office is up to speed and following the latest municipal best practices while being prepared for what's next to come.

Attached is a summary of benefits as well as a cost breakdown of attending the event. More information about registration, this year's conference program, sessions and speakers is available online [here](#).

I would be happy to answer any other questions you may have.

Thank you for your consideration.

Sincerely,
